## Creative Work

### **Mary Golden | Design Studio**

Rochester, New York

From 2002- 2021, this interior design company focused on high-end custom residential, small-scale commercial, retail and restaurant clientele. MG|DS was the first company in Western New York (formerly Gaiatecture Design) to specialize in the design of natural building and interior applications integrating mainstream construction technologies with sustainable systems. The business recently closed to afford full time focus on the leadership position at RIT and to direct the RIT Hope for Honduras work.
